## INTRO

---

The effects of a global pandemic like Covid-19 are felt by everyone – both in public and private life. In order to prevent or slow down the spread, we must all take active steps to prevent the proliferation and spreading of aggressive viruses and bacteria. With a view to driving this forward and making measures as easy as possible to implement, we have compiled a number of helpful solutions for hygiene protection. Let's get active together!

# SAFETY PROTECTION TRUST

**EFFECTIVE PROTECTION MEASURES IN A SHORT TIME.**

When hospitals are running out of beds , large halls must be converted for emergency use. Our partition wall system not only helps to use the available space as efficiently as possible, but also to protect individual privacy. Self-assembly Cleanroom kits for further treatments are available too. Always tailored to your individual needs and requirements.

A photograph of a modern hospital room. Two hospital beds are visible, separated by glass partitions. The room has large windows with blinds, and the floor is made of light-colored tiles. The lighting is bright and clinical.

Adapted in size and number. Our team of experts will be happy to provide further information and advice. In the following, we are going to show you how to best protect people from high-risk groups.

**QUICK AND SIMPLE.  
AVAILABLE AT SHORT NOTICE.  
EASY TO CLEAN.**

Simple and modular thanks to the combination of panels, uprights and beams.

## HEALTH CARE

### Mobile Emergency Units

The modular design allows for easy and quick extensions.

#### **Fast reaction: for more treatment beds.**

To compensate for the increasing lack of treatment rooms, our partition wall system can be used to build rooms for emergency hospitals. This enables medical examinations in separate cabins in next to no time.

Thanks to the quick and easy installation and/or conversion and the wide range of accessories, our partition wall system is immediately ready for use and can be perfectly adapted to the individual field of application.

# CLEANROOM ATMOSPHERE WITH OUR CLEANROOM KITS.

Cleanroom cabin made of resistant  
aluminium and acrylic glass

## HEALTH CARE

### Treatment Cabins

Our self-assembly kits are available in different sizes.

#### **When standard partition walls are not enough.**

Wherever a cleanroom atmosphere is required, our cleanroom kits are the perfect solution. By means of our optional filter fan units (FFU) the air from inside the cabin is pressed outwards, providing a dust-free treatment room. The components used are made of aluminium and acrylic glass and are particularly easy to clean.

In addition, we also offer full service from individual advice to delivery and installation (if required).

Clearly  
separated areas  
for a safe visit

**KEEP IN TOUCH  
AND STAY SAFE  
IN ALL AREAS.**

## HEALTH CARE

### Visiting Rooms

The modular design permits the installation of opaque panels and acrylic glass as desired.

#### **Personal visits with a good and safe feeling.**

In private life, there is nothing that could ever replace personal contact. To enable visits to facilities of all kinds, both sides must be protected. Visiting rooms built with our modular wall system can be quickly and easily adapted to different needs in terms of size and material.
