More than 140 highly qualified exhibition builders in 44 countries guarantee the same quality of service and use the high quality of OCTANORM exhibition construction systems at all trade fairs. Therefore OSPI is the most efficient exhibition builders network worldwide.

INTERNATIONAL EXHIBITORS VIEW THE OSPI NETWORK AS A SIGNIFICANT ADVANTAGE

SERVICE WORLDWIDE

OCTANORM Service Partner International offer enormous advantages: they create great benefits and provide outstanding added value.

An example is the time factor: the worldwide networking of all partner companies of the OSPI Network makes it possible to plan and execute all exhibition stands substantially faster and more effectively.

For international trade fair exhibitors this means lower costs, maximum added value, and constant high quality. Participating at fairs – wherever they are – plus the OSPI Network can only mean profit for you.

OCTANORM SERVICE PARTNER INTERNATIONAL

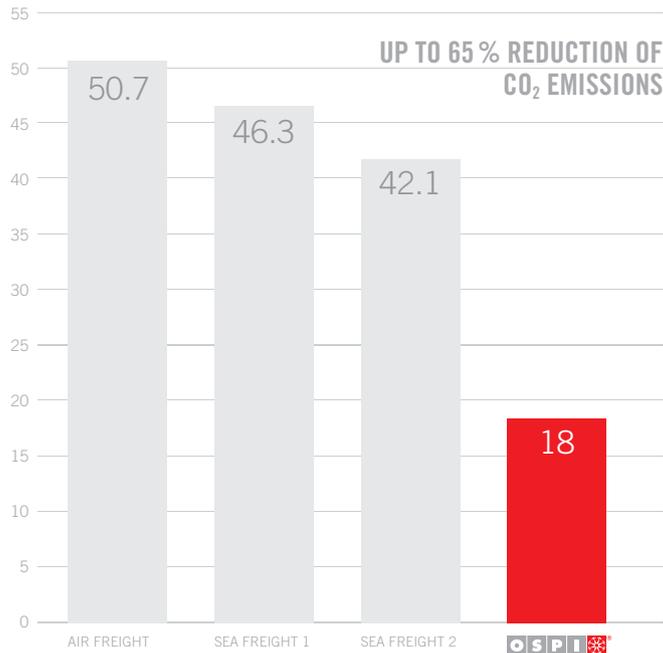

- OSPI solve your worldwide logistics problems.
- OSPI ensure reduced transport and travel costs.
- OSPI make a real contribution to sustainability by reuse and saving CO₂ emissions.
- OSPI know the trade fairs' requirements and peculiarities.
- OSPI achieve the same quality standards worldwide through OCTANORM system products.
- OSPI immediately react to assist each other internationally.
- OSPI consistently use the same CAD software with online connection to all partners.
- OSPI are specialists and have the knowledge of technical regulations.

SUSTAINABILITY WORLDWIDE

The following example is to illustrate the savings in CO₂ emissions possible thanks to the OSPI® Network: An exhibitor from Los Angeles wants to present his company at an exhibition in Frankfurt (Main):

OSPI MEANS HIGHEST QUALITY ALSO CONCERNING SUSTAINABILITY

CO₂ EMISSIONS IN TONS

- **Without the help of the OSPI® Network**, the project is planned and manufactured by an exhibition builder in Los Angeles. Afterwards, the exhibition stand has to be transported to Germany using different modes of transportation (air freight, sea freight, truck).
- **With the help of the OSPI® Network**, the exhibition stand is planned by a local OSPI but manufactured in Germany by another OSPI. Therefore, overseas transportation is made redundant.

Four scenarios are possible:

	AIR FREIGHT 	SEA FREIGHT 1 	SEA FREIGHT 2 	OSPI OCTANORM SERVICE PARTNER INTERNATIONAL 
PLANNING	In Los Angeles.	In Los Angeles.	In Los Angeles.	In Los Angeles.
MATERIAL	Via direct flight from LA to Frankfurt.	Transport of the components via flight from LA to Miami. Afterwards, transport to Europe by ship.	Transport of the components from LA to Miami by truck. Afterwards, transport to Europe by ship.	The components are manufactured close to their final destination and are transported by truck.
PERSONNEL	Via direct flight from LA to Frankfurt.	Via direct flight from LA to Frankfurt.	Via direct flight from LA to Frankfurt.	Exhibition crew via direct flight from LA to Frankfurt. The construction crew is close to the final destination.
